When Officer Mojica went to check the men's restroom he saw a transient with three syringes in his hand and a red container containing drug paraphernalia. Upon being discovered, the transient hid the syringes and aggressively confronted Officer Mojica. Officer Mojica radioed S/O Manuel and S/O Fabian for assistance. When the transient saw the other guards he complied and exited the restroom. When he was exiting through the south exit he continued yelling nonsense. He slammed the door as he exited the Library. 10min later he was by the children patio area yelling at S/O Manuel, Carlos and Mojica. S/O Manuel told the transient to leave the premises. When Officer Manuel was trying to get him out of the area the transient held a syringe in his hand. The patron finally left.
