Jay Lee, Vice-Chairman, Foxconn Technology Group
Brand Cheng, CEO, Foxconn Industrial Internet
611 E. Wisconsin Avenue
Milwaukee, WI 53202

Dear Dr. Lee and Mr. Cheng,

Thank you very much for the tour of the Foxconn site on Friday afternoon. It was kind of you to accommodate Sam Ridders, Brian Nowicki and me for the visit on short notice. Once again, I am so impressed with your vision for Wisconsin Valley.

Now that I have seen the construction underway, and more fully understand the current facility and the next phases anticipated, I believe we should sit down and have further conversations. As the previous correspondence from Governor Evers, Secretary Hogan and Secretary Brennan indicate, along with my November 13th letter, the State wants to continue to champion Foxconn's investments in Wisconsin. To help make your new project in Mt. Pleasant as successful as possible, I hope we can take the time soon to meet to discuss how best to align Foxconn's needs and expectations with those of the State, WEDC, and of course, the citizens of Wisconsin. I do not doubt our ability to find and create that alignment, and indeed, I am excited to be able to take our mutual vision to the Governor and the rest of the State.

I would be glad to come visit you in Milwaukee as soon as your schedule accommodates. I will ask Sam to reach out to your team with possible dates and times. Good luck with your upcoming visit to Georgia Tech.

Sincerely,

Melissa L. Hughes
Secretary and CEO
