Robert A. Zimmerman

Randolph C. Zur

Yochum, Daniel L.
Zimmerman, Robert A.
Zur, Randolph C.

The signatures above represent sixty-eight members of the 1970 football team at Syracuse University.

The fact that nobody has asked for our opinions on pertinent question concerning the team, we have decided to set forth our opinions in writing for the benefit of whomever are interested.

1. As far as we are concerned, there are no racial questions involved.
2. It would appear that ten members of the squad and their advisors are attempting to dictate the football policy of Syracuse University. This we will not permit.
3. We have implicit faith in our head coach and believe and insist that it should be his sole opinion as to whether a coach should be added to the present staff or whether a coach should be deleted from said staff. We feel that he has well earned that right by his record over a period of many years.
4. We will not accept anything concerning this problem which in our opinion is being forced upon our group.
5. That we the above are one hundred per cent behind our coach's opinions on football matters and will abide by said opinions regardless of the attempts being made by others to dictate otherwise.
6. That our recent practice sessions have been the best that we have had in years and in our opinion cannot be improved upon.
7. Never has the spirit been as great as it exists on our practice field this year.
8. We have many great football players on our team and they have indicated that they expect this team to be the best team that has represented Syracuse University in years.
9. It is to be understood that the above represents the concerted opinions of sixty-eight players and is not to be construed as being the opinions of a committee representing this group.
